Description

Cartons that contained milk, juice and similar liquids in addition to newspapers, flyers and office paper.

Collection

Emptied/collected together with paper from receptacles of 140 l, 240 l, 360 l or 660 l receptacles. At larger volumes, emptied/collected in containers, or for example, Molok. Shipped via reloading to waste processing facilities.

Processing

The quality is checked visually and is then pressed for sale to paper mills in Norway and abroad.

Recycling

Recycled and becomes a new milk or juice carton and paper.

Non-compliance

A sorting fee may be charged if the item is not sorted into a homogeneous fraction. If sorting is not possible, the entire delivery can be reclassified as residual waste.
