- ✓ Ropes and cords
- ✓ EPS
- ✓ Metals
- ✓ Hazardous waste

Description

Plastic packaging that is clean and uncontaminated can be recycled.

Collection

Collected in a baled fraction, in clear or purple bags, receptacles, containers and compactors.

Processing

Controlled visually by driver and upon arrival at waste reception facility. Here, the plastic is compacted before being sent for recycling.

Recycling

The plastic is sent for recycling.

Non-compliance

A sorting fee may be charged if the item is not sorted into a homogeneous fraction. For example, non-packaging plastic (plastic toys, furniture).
