

## Lead-acid batteries

### Is to contain

- ✓ Lead accumulators
- ✓ Car batteries
- ✓ UPS systems

### Is not to contain

- ✓ Other types of batteries
- ✓ Batteries from electric cars
- ✓ Other types of waste
- ✓

## Description

Batteries from cars and similar items. [See the Battery Return overview for examples.](#)

## Collection

Collected on pallets. Batteries can be placed on Euro pallets, but also place plastic at the bottom to catch any leakage from damaged batteries/battery acid.

## Processing

The batteries are shipped to approved waste processing facilities. Sorted by type and forwarded for processing.

## Recycling

The metals in the batteries are recycled in specialized facilities.

## Non-compliance

A sorting fee may be charged if the item is not sorted into a homogeneous fraction.

## Reference to regulations
